INNOVATING FOR PERFECTION
... THE POWER TO ACHIEVE

FORD approves CONCEPT to supply it's UK Dealer network with PDI chemical products.

HONDA commissions CONCEPT for the development of a new polishing compound for their Swindon Production Plant.

RENAULT (France) contracts CONCEPT for the supply of own-label polishes for after-market sale through their European Dealer Network.

F1 RACING TEAMS, including Williams and BAR take advantage of performance improvements offered by CONCEPT cleaning and polishing products.

The UK's largest accident body repair network selects CONCEPT as Sole Supplier for silicone free chemicals and Compounds.

SWIFT & COACHMAN CARAVANS approve on-line unique cleaning agent for removing sealants from CAP-ABS plastic

LAND ROVER commissions CONCEPT to develop a unique coating product for the interior trim of the Range Rover model.

AUTOVAZ (Russia) chooses Surf-ACE Compound for their production process.

PINMAR (Spain) chooses CONCEPT polishing and coating products for working on mega-yachts.

MORRELLS, UK's #1 lacquer manufacturer for Kitchen furniture selects CONCEPT polishing compounds.

ZIRCONITE – approved Brand of BMW in Belgium and Luxembourg.

ZIRCONITE world-wide growth continues with new Importers and Distributors.

Concept Chemicals & Coatings Ltd, was founded in 1987, by a team of dedicated chemists, bringing together over 20 years' experience in formulating high performance chemicals for cleaning, detailing and protective coatings, for the automotive, marine, commercial and transportation industries.

In its first year Concept launched a SYSTEMIZED PROFESSIONAL PROGRAMME which was recognised at its creation, as the UK's leading programme of specialist chemicals for the vehicle appearance conditioning industry.

Since the 1980's and through the 1990's the development of traditional car wax polish technology has continued to evolve at pace, meeting increasing demands by professional users for formulations with better gloss, faster and easier in use, non-marking of plastics and greater wash cycle resistance – longer lasting results.

These performance demands naturally led our chemists to the introduction of new polishing aluminas, new silicone and wax combinations, new silicone-resins and new cross-linking silicones, designed to deliver longer lasting finishes.

This continual search for ever higher standards of excellence resulted, in 2004, with Concept developing a new polymer technology, enabling our laboratory to formulate a unique hybrid PTFE/Acrylic-Wax coating, which reinforced with revolutionary new self-cleaning NANO technology, is designed for both automotive and marine applications.

This extraordinary new Coating was launched with a new brand name for our coatings: ZIRCONITE, reflecting its durability and resilience and its brilliant reflective properties. ZIRCONITE NANO-GLAZE rapidly achieved major commercial success, not only in the automotive sector, but also to one of the world's leading marine Industry paint finishing and re-coating contractors, responsible for some of the world's largest 160 metre mega-yachts.

Since 2004, the ZIRCONITE BRAND of COATINGS has continued to go from strength to strength, bringing new coatings and innovative new Technologies to the professional user in the automotive, marine, transport and aviation sectors.

Concept Chemicals and Coatings Ltd continues to be at the forefront of the chemical science industry, with our ongoing product development philosophy which has been from the outset and continues to be dedicated to 'the pursuit of excellence' to meet the needs of an ever evolving world.

Surface science nano-coatings for total protection

EXTERIOR | INTERIOR

ZIRCONITE
PROTECTION SYSTEM

CONCEPT

The development, manufacture, processing and distribution of chemicals for the automotive and transport cleaning industries, speciality chemicals for paint refinishing.

ZIRCONITE - Protecting surfaces from harmful UV fading and environmental / industrial fall-out. The Zirconite system is a complete professional range of nano-engineered, invisible coatings, formulated to chemically bond at the nanoscopic level to a full range of surfaces: paintwork, plastics, gel-coats, glass, alloy wheels, chrome, brake calipers, aluminium, leather, fabric (including convertible roofs) and carpets.

CUTTING EDGE TECHNOLOGY

ZIRCONITE ZG-365

GRAPHENE INFUSED COATING

An ultra-high performance and long-lasting, multi-surface automotive protective coating, formulated using the world's strongest and thinnest commercially-available material, graphene. ZIRCONITE ZG-365's graphene-infused formulation provides an exceptionally high-slip gloss finish when applied to a vehicle's exterior surfaces, helping to maintain and enhance the dramatic and magical 'Lotus-Leaf' water beading effect; repelling water and dirt build up.

At just one atom thick, graphene possesses qualities and characteristics unmatched by any other material, including super-high strength (**200 times stronger than steel**), light weight and transparency.

ZIRCONITE CERAMIC [QUARTZ] COATINGS

Formulated with a high super-hard active level of SiO₂

ZIRCONITE INTERIOR COATINGS

Protecting leather, carpets and fabrics (including cabriolet roofs) with advanced technology

Benefits of Zirconite Exterior Coatings:

• ENHANCES GLOSS

Paintwork given added depth and clarity to the paint/lacquer - maintaining "As-New" Vehicle Showroom appearance.

• RETAINS THE HIGH GLOSS FINISH

Forms a permanent bond with the vehicle paintwork, which unlike a conventional polish, does not wash off, as coating bonds to the paint/lacquer. In fact the only way to remove ZQ9h, this brilliantly clear protective bonded coating, is with the use of abrasive sanding by machine!

• SCRATCH RESISTANT

Extremely resistant to scratches. ZQ9h increases the average paint hardness x 3 times resulting in 9H on the Mohs (mineral hardness) scale.

• NO ROUTINE POLISHING

The normal practice of re-waxing a car every 1 or 2 months to maintain its gloss and a degree of protection is no longer a requirement.

• SUPERIOR SELF-CLEAN TECHNOLOGY

Coated surfaces are "self-cleaning" resulting in reduced maintenance: cleaning made easy. The treated surface has a strong hydrophobic effect - commonly referred to as the "Lotus-leaf" effect. Water and contaminants slide off the surface, reducing water spotting.

• UV PROTECTION FROM FADING

Zirconite coatings provide UV Protection to the paintwork, reducing problems of oxidation/fading of paint colour.

• HIGHLY CHEMICALLY RESISTANT

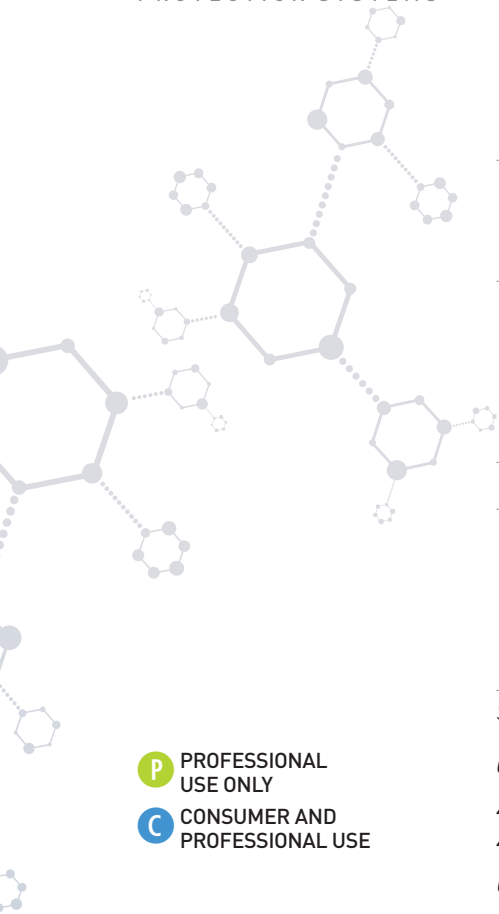

Protects against Acid/Alkaline Rain, Road Salt, Bird Lime, Environmental Degradation. Unaffected by chemical washing: from pH2 up to pH12.

• ECONOMY-COST IN USE

One 30ml of ZQ9h is sufficient to apply 2 full coatings to an average sized car.

ZIRCONITE ZQ9^H

ZQ9^H Quartz Coating Application Kit including Panel Prep

#ZIRZQ9KIT 30ml
#ZIRZQ9KIT/50 50ml
Contents:

- 1 x ZQ9h
Polysilazane bottle
- 1 x dripper,
- 1 x applicator block
- 2 x micro-suede cloths
- 1 x Panel-Prep 185ml
- 3 x Zirconite lint-free
Panel-Prep cloths
- 2 x Zirconite microfibre
cloths
- 1 x instruction leaflet
- 1 x pair of gloves
- 1 x Zirconite sticker

P

Permanent bond quartz (glass) coating.
 High gloss, multi-surface protection
 with advanced chemical and corrosion
 resistance: unaffected by repeated
 washing cycles from pH2 to pH12

Forms a permanent bond to all surfaces:
 coating can only be removed by abrasion.
 Oxidation and UV resistant. Scratch
 resistant: pencil test hardness 9h.
 Panel Prep has been specially
 formulated surface pre-clean treatment
 to ensure a perfect surface for
 cleanliness and adhesion of ZQ9h.

Guarantee: 10 years with ZC-Boosta
 maintenance program.

ZQ9^H Quartz Coating Application Kit

#ZIR525030 30ml kit
#ZIR525050 50ml kit
Contents:

- 1 x ZQ9h
Polysilazane bottle
- 1 x dripper,
- 1 x applicator block
- 2 x micro-suede cloths
- 1 x pair of gloves
- 1 x instruction leaflet
- 1 x Zirconite sticker

P

Permanent bond quartz (glass) coating.
 High gloss, multi-surface protection
 with advanced chemical and corrosion
 resistance: unaffected by repeated
 washing cycles from pH2 to pH12.

Forms a permanent bond to all surfaces:
 coating can only be removed by abrasion.
 Oxidation and UV resistant. Scratch
 resistant: pencil test hardness 9h.

Guarantee: 10 years with ZC-Boosta
 maintenance program.

Zirconite Panel-Prep Speciality cleaner/degreaser

#ZIR503 185/01/05

Pack Sizes:

- 1 x 185ml
- 1 x 1 Litre
- 1 x 5 Litre

P

Super-efficient, hi-active cleaner-
 degreaser for preparation of painted
 surfaces, wheel rims and glass. Ensures
 optimum bonding of ZIRCONITE
 Ceramic/Quartz Coatings to all surfaces.

Unique formulation incorporating a
 biodegradable "green solvent". Contains
 no Hydrocarbon solvents - bodyshop
 approved and is compatible with all
 paint systems including water-based.

Zirconite Panel-Prep Cloths

#ZIR069

Contents:

- 50 x cloths (30x38cm)
- per pack: 10 packs per
 case

Lint-Free
 absorbent
 cloths specially
 created for use
 with ZIRCONITE
 PANEL-PREP

ZIRCONITE

ZIRCONITE NANO-GLAZE - PTFE

Nano-Glaze One Vehicle application kit

#ZIR49201

Contents:

- 1 x 125ml Stage 1
- 1 x 125ml Stage 2
- 1 x applicator sponge
- 1 x micro fibre cloth
- 1 x instruction leaflet
- 1 x Zirconite sticker

P

The Zirconite Paint Protection System is a unique blend of PTFE and acrylic resins containing UV screens to lockout harmful atmospheric degradation. Provides protection even in the extremes of polar and desert climates.

With an easy to follow maintenance program, which enhances the appearance of the Zirconite treatment, to deliver maximum re-sale value

Guarantee: 6 years with ZC-Boosta maintenance program.

Nano-Glaze 1L Multi-Pack

#ZIR494/3

Contents:

- 1 x 1 litre Stage 1
- 1 x 1 litre Stage 2
- 1 x instruction leaflet

P

1 Litre packs of Zirconite Stage 1 and Zirconite Stage 2 to enable dealerships/ detailers to offer either a Paint Protection service with or without Guarantee.

Guarantee: 6 years with ZC-Boosta maintenance program.

ZC-Boosta

Reactive booster coating

#ZIR501030 30ml
#ZIR501050 50ml

Contents:

1 x ZC BOOSTA bottle
 2 x micro suede cloths
 1 x gloves
 1 x instruction leaflet
 1 x Zirconite sticker

P

Chemically fuses to ZIRCONITE Coatings.

Increases durability, longevity and hydrophobic properties.

UV and chemical resistant, protects and increases gloss levels to a new standard of excellence.

Ultimate hydrophobic scratch resistant coating.

Long lasting - 12 months protection.

**ZC-Boosta can also be used as a stand-alone coating*

ZG-365

Graphene infused coating

#ZG-365200 200ml

Pack Size:

1 x 200ml Spray

C

Graphene Infused High Gloss Multi-Surface Protective Coating cures to form a strong chemical bond to paintwork and other hard substrates.

Quick and Easy: Simply Mist on Buff-off. ZG-365 can be layered within 3mins of original application to boost scratch and abrasion resistance.

Delivers 365 days of protection to treated surfaces and provides an incredible high-slip finish to maintain and enhance the dramatic and magical 'Lotus-Leaf' water beading effect to repel water and dirt build up.

Protective coating for rapid sealing of most exterior surfaces including: Paint / Plastic Trim / Wheels

Bead-Magik

Super-hydrophobic coating

#ZIR504 300/405

Pack Size:

1 x 300ml Spray
 1 x 5 Litre

C

Advanced super-hydrophobic coating, developed to maintain and enhance the magical water beading effect of paint finish coatings.

Extends and enhances gloss level and durability of paint finish coatings.

Delivers enhanced water- sheeting/ hydrophobic properties with dramatic nano 'Lotus-Leaf' effect. Incredible high-slip finish, repels water and dirt build-up while boosting scratch and abrasion resistance.

A fast curing, easy application, protective coating for rapid sealing of most exterior surfaces: •Paint •Glass •Plastic Trim •Wheels - cures within 10 minutes! Long lasting - 6 to 9 months protection.

ZQ5 Quartz Alloy wheel application kit

#ZIR528015 15ml/30ml

Contents:

- 1 x 15ml/30ml ZQ5
- 2 x finger pads
- 2 x micro suede cloths
- 1 x gloves
- 1 x instruction leaflet

P

ZQ5 keeps rims cleaner for longer!

Extreme protection for hard working wheels. Chemically bonds to wheel surfaces to ensure ultimate durability

Withstands high temperatures and harsh chemicals, making it an ideal solution for hard-working wheels.

Surface technology provides excellent brake dust, stain and contaminant resistance, making surfaces much easier to clean and maintain.

Durability: one application up to 6 months / 6k miles

ZQ5 can also be used on brake calipers

See-Clear Rain repellent

#ZIR505100

Pack Size:

1 counter display carton
of 12 x 100ml Spray)

C

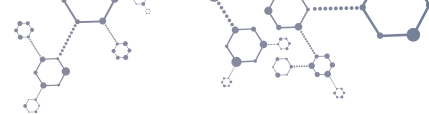

Nano-technology rain repellent

Zirconite SEE-CLEAR; repels water, dirt, sleet & snow for clearer vision and improved driving visibility.

Easy application.

4-6 week durability.

ZIRCONITE INTERIOR-LEATHER

Leather Shield One vehicle Application kit

#ZIR496150

Contents:

- 1 x 150ml Leather Shield
- 1 x applicator sponge
- 1 x microfibre cloth

P

Long-life protection to most types of leather upholstery and trim. Treated surfaces are coated with an invisible and breathable barrier which helps to prevent staining from spillages etc.

Leather Shield also contains advanced UV screening technology which prevents fading and maintains the original factory colour. Leaves treated surfaces with an 'as new' matt finish and feel.

Leather Shield 1 litre multi-vehicle

#ZIR49601

Pack Size:

- 1 x 1 Litre Leather Shield

P

Larger pack size for multi-vehicle or commercial vehicle use (eg. luxury coach).

Long-life protection to most types of leather upholstery and trim. Treated surfaces are coated with an invisible and breathable barrier which helps to prevent staining from spillages etc.

Leather Shield also contains advanced UV screening technology which prevents fading and maintains the original factory colour. Leaves treated surfaces with an 'as new' matt finish and feel.

ZIRCONITE INTERIOR-FABRIC, CARPET, CABRIOLET ROOFS

Fabric/Carpet Protector Aerosol

#ZIR33412

Pack Size:

1 x 400ml Aerosol

P

Invisible non-tacky micro-resin protection for interior carpets and fabric seats to maintain 'as-new' appearance.

Treated interior surfaces repel dirt and grime to extend fabric and carpet life, allowing for quicker and easier cleaning and maintenance.

Applied by aerosol for quick coverage.

Fabric/Carpet Protector Flairosol spray

#ZIR495300

Pack Size:

1 x 300ml Flairosol Spray

P

Invisible non-tacky micro-resin protection for interior carpets and fabric seats to maintain 'as-new' appearance.

Treated interior surfaces repel dirt and grime to extend fabric and carpet life, allowing for quicker and easier cleaning and maintenance.

Applied by trigger spray for ultimate control.

Fabric/Carpet Protector Bulk sizes

#ZIR49505/25

Pack Sizes:

1 x 5 Litre or 25 Litre

P

Bulk packs for trade use or on large vehicle interiors such as coaches/buses.

Invisible non-tacky micro-resin protection for interior carpets and fabric seats to maintain 'as-new' appearance.

Treated interior surfaces repel dirt and grime to extend fabric and carpet life, allowing for quicker and easier cleaning and maintenance.

Applied by trigger spray after decanting.

ZIRCONITE ACCESSORIES

Microfibre Cloths

#ZIR049

Pack Size:

2 x microfibre cloth

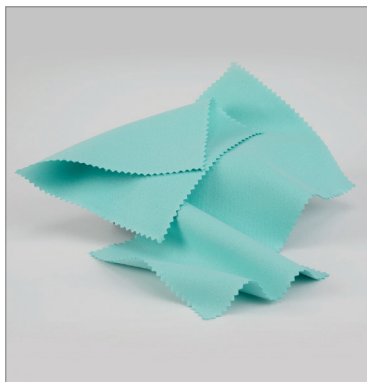

Superior high quality cloth with high absorbency structure to efficiently remove any residual hazing in the final buffing process.

Faster to work with compared to conventional warp knitted cloths.

None-scratch radius corners to avoid scratching of sensitive surfaces.

Long lasting - withstands repeated wash cycles.

Micro-Suede Cloths

#ZIR050

Pack Size:

10 x Micro-suede cloths

Specially designed for use with Zirconite Applicator block to deliver even application of coatings: 115 x 110 mm.

Applicator Block

#ZIR053

Pack Size:

5 x Applicator block

Foam faced handy applicator for use with Micro-suede Cloths

Foam edging allows the suede cloth to follow any uneven contours to ensure even and complete coverage of coatings.

Suede Finger Pads

#ZIR052

Pack Size:

1 x 3 finger pads

Ultra-fine flexible finger pads

Foam filled to ensure smooth and even application of coatings including around tight contours/edges.

The ideal applicator for:

- ZQ5
- ZC-B00STA
- SEE-CLEAR Rain Repellent

Leather Shield Applicator Pads

#ZIR067S

Pack Size:

1 x 12 applicator pads

Easy to use ergonomic Applicator

Super-fine open-cell foam structure to deliver a controlled and even layer of coating.

ZIRCONITE AFTERCARE

Conservar

#ZIR468250S

Pack Size:

1 x 250ml Zirconite
Conservar

Conservar solution provides an additional sacrificial coating which remains on top of the Zirconite paint sealant

Zirconite Small Bag

#ZIRG100

Pack Size:

24 x 15 x 13cm

Zirconite small bag - ideal for keeping in the car. Holds 2 x 500ml bottles. Large double zip-pull flap front for easy access. Made with 600d polyester, tough and hardwearing. *Note: bag only - no products*

Zirconite Medium Bag

#UB001

Pack Size:

30 x 26 x 11cm

Zirconite medium bag. Holds up to 7 x 500ml bottles. Large double zip-pull flap front for easy access. Made with 600d polyester, tough and hardwearing. *Note: bag only - no products*

ZIRCONITE AFTERCARE

A complete range of aftercare products with the same superb quality as Zirconite Coatings. From wheel cleaner to leather care, Zirconite aftercare products help maintain the quality of finish you expect.

Now the enthusiast detailer who wants to use the "Choice of the Professionals" can have access to a range of Industry leading quality products with full confidence in a programme of detailing product which, from their ongoing heritage, deliver Concept's chosen professional performance criteria for excellence: speed ease of use, versatility, durability, and quality of finish. Zirconite products have been designed to work under the pressure of time to deliver results 1st time, every time!

These same professional quality products acclaimed around the world, chosen by motor manufacturers, vehicle import centres, major P.D.I. preparation centres, car valeting and detailing companies, franchise car dealers, bodyshops, and major Formula 1 racing teams are available to the enthusiast home detailer ... 'who is in the know'!

In the cleaning, polishing and detailing world of Zirconite, speed, performance and total image count for everything.

Wash & Wax

Luxury shampoo, neutral pH to maintain and protect integrity of paintwork wax.

ZIR508500 500ml

Nano Shampoo

pH neutral shampoo and conditioner. Rinse water is rapidly driven away from all surfaces, reducing drying time and minimising water spotting.

ZIR509001 1L

Fall-out Remover & Wheel Cleaner

Colour changing wheel cleaner, paintwork & exterior de-contaminant/fallout remover. pH neutral, acid free, non-caustic.

ZIR511500 500ml

Wheel Cleaner

Clinging-gel, foaming wheel cleaner for fast and efficient removal of burnt-on black brake dust from lacquered alloy, painted steel and plastic wheel trims.

ZIR510500 500ml

Snow-Foam Max

Economical foaming blanket clings to surfaces enhancing cleaning action. Breaks down and lift all heavy soiling, traffic film, dirt, grease and oil.

ZIR507038 1 US GAL*

*1 US GAL = 3.785L

Interior Trim Detailer

Conditions and protects trim. Delivers a non-greasy silk sheen finish to all plastics, vinyl and rubber trim.

ZIR514500 500ml

Express Detailer

3-in-1 waterless cleaner, detailer and polish for all exterior surfaces including glass, plastic, trim and paintwork.

ZIR516500 500ml

Carnauba Speed Wax

Luxurious, long-lasting polish using only pure Carnauba Wax. Delivers incredible deep gloss finish.

ZIR515500 500ml

Glass Cleaner

Alcohol-free glass cleaning and detailing. Super-fast and easy to use - simply spray and wipe clean.

ZIR512500 500ml

Leather Cleaner

Formulated to deliver safe and easy cleaning of most types of leather upholstery and trim..

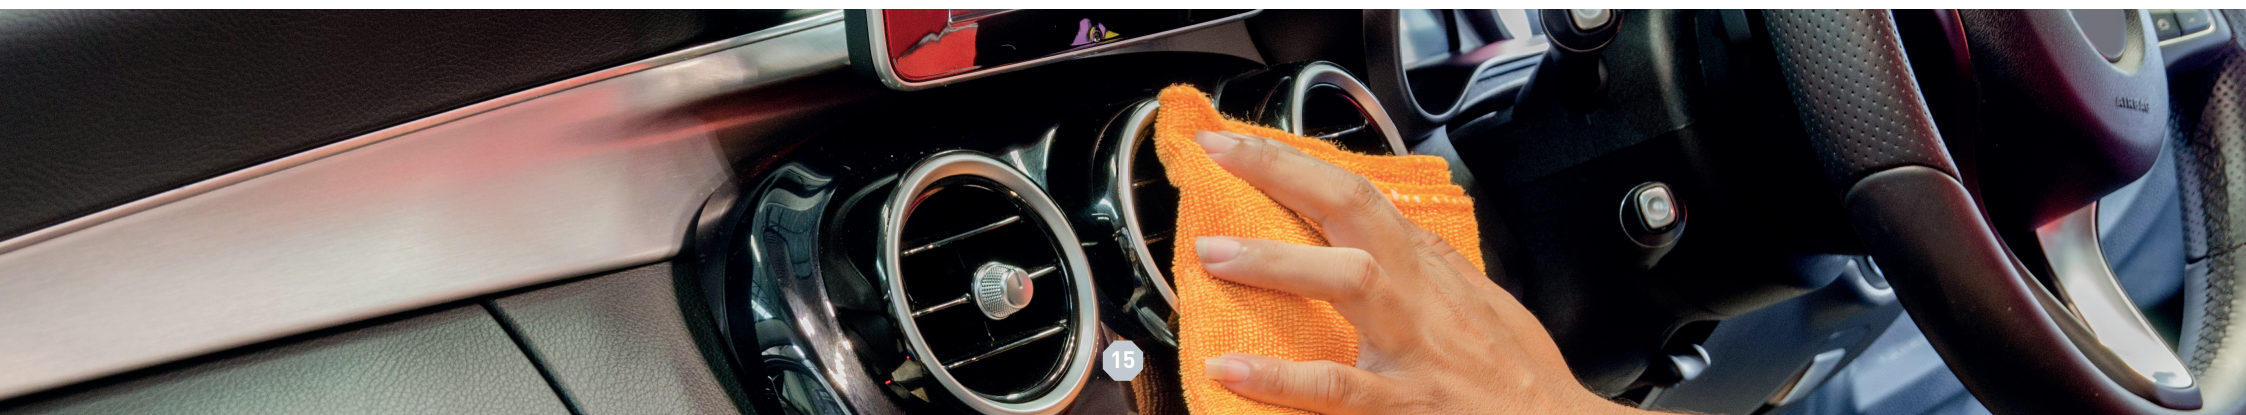

ZIR512500 500ml

Tyre & Trim

Instant spray-on tyre dressing to give "new-again" deep black satin finish. Can be applied to wet or dry tyres. For exterior plastic and rubber trims.

ZIR517500 500ml

TECHNOLOGY IN CHEMISTRY

The total paint rectification solution

Paint surface preparation is the essential first step, a pre-requisite, in achieving the ultimate finish of all protective coatings - whether Quartz (Glass), Ceramic or Teflon (PTFE).

The paint/lacquer should be examined and prepared to ensure a super-clean surface, free from any scratches, minor-blemishes, swirl marks or holograms.

Award Winning Surf-ACE compounds, with unique DRA World 1st Technology, deliver unrivalled results in scratch removal - with minimal dropback.

Used by vehicle OEMs on production lines, and in crash repair centres throughout Europe, Surf-ACE compounds are also used in the exacting marine refinish market, where they prove themselves daily in the polishing of mega-yachts.

World Class finishes in Quartz and Ceramic Coatings demand Surf-ACE compounds.

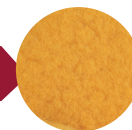

PRE-COATING PREPARATION

Scratch Remover

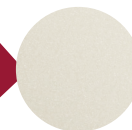

Heavy Scratches/Oxidation or P1200 Sanding Marks

#711: 250ml , 1 kilo, 2 x 100g product trial pack: #740000EU

P-12XTRA HEAVY CUT COMPOUND

Recommended for harder clear-coats.

Quickly and easily removes paintwork and gelcoat imperfections, random deep scratches, and heavy oxidation in the shortest possible time to deliver a unique depth of gloss and mirror like finish.

Improved lubrication system which can be worked for prolonged periods if required without drying out.

Quick and easy clean-up after application, does not contain fillers. Guarantees minimal drop back on dark colours.

#713

Pack Size:

1 Kilo / 250ml

One product - two pads, the ultimate finish in scratch removal and gloss!

With a variety of pad combinations P-15XTRA quickly delivers varying levels of scratch removal and finish to both paintwork and gelcoats.

Delivers a unique depth of gloss and mirror like finish.

Optimum scratch removal and finish: P-15XTRA benefits from an improved lubrication system which can be worked for prolonged periods without drying out.

Quick and easy clean-up after application, does not contain fillers. Guarantees minimal drop back on dark colours.

#710

Pack Size:

1 Kilo | 500gm

P-40XTRA ULTRA-FINE FINISHING GLAZE

Superior Anti-Hologram Glaze and Polish

A specially formulated ultra-fine compound designed for final finish polishing to remove hologram, swirls and light defects.

Problem Colours: Highly recommended for problem dark paint colours.

Easy to Use: Easy to apply, quick to buff and fast to clean.

Deep Gloss Shine: Produces a superb high gloss finish with no greasy/smearing problems, minimal drop-back.

#711

Pack Size:

1 Kilo / 250ml

PADS: XC-15 MICRO-WOOL , GENUINE MERINO LAMBSWOOL, WHITE [cutting foam], ORANGE [swirl-remover foam], BLACK [finishing foam] are all available in 80mm, 150mm, 165mm & 175mm sizes

WORLDWIDE OPERATION

Delivering world-beating products to over 60 countries around the globe.

MAKING CONCEPT HISTORY...

1998. RENAULT contracts CONCEPT to supply own-label polishes for sale through their European Dealer Network.

2002. Churchill/Direct Line - the UK's largest accident repair network, handling over 75,000 cars annually, select CONCEPT as sole supplier for silicone-free chemicals and polishing compounds.

2006. AUTOVAZ (Russian Federation) chooses Surf-ACE polishing compound for OEM vehicle production.

2009. LAND ROVER commissions CONCEPT to develop unique coating for interior trim of luxury Range Rover models.

2013. PINMAR (USA & Spain) choose Surf-ACE compounds and ZIRCONITE coatings for contract maintenance of mega-yachts.

2019. BMW in Belgium & Luxembourg select ZIRCONITE as approved brand for paint and wheel protection.

2019. Zirconite UK established as official distribution partner of England Scotland and Wales.

2020. Official distribution partner appointed in the U.A.E. and Oman.

2021. Zirconite expands into the Indian market.

2022. Zirconite partners appointed in Thailand, Mauritius and the Philippines. Zirconite brand launched in the USA.

ZIRCONITE Approved Training & Certification

Join the ZIRCONITE family and share our passion for perfection and craftsmanship.

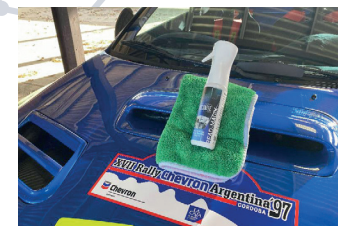

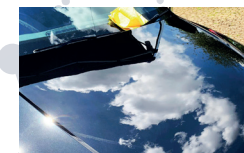

Comprehensive training is provided at our world class Training Centre in Manchester, England.*

The intensive 2-day training courses take the participants through the complete process of:

- Vehicle cleaning and contaminant removal using CONCEPT/ ZIRCONITE products
- Paintwork preparation using Surf-ACE compounds
- Application of ZIRCONITE coatings
- Correct use of ZIRCONITE maintenance products to adhere to system guarantees.

After completion and certification, you will join the ZIRCONITE family, giving you access to our industry-leading professional-only products.

**With the continued global expansion of the ZIRCONITE brand, new strategically located approved ZIRCONITE Training Centres are opening around the world.*
