

CONQUEST

ACID FREE WHEEL CLEANER

Specially Formulated: For all motor vehicle wheels: lacquered alloys, painted and plastic trimmed, to quickly yet safely removes black ingrained brake dust.

User Friendly: A total pleasure to work with, unlike some aggressive acidic based wheel cleaners.

Surface Friendly: Unique acid free formula gives the user total confidence of safety in use: non harmful to rubber.

Unique Double Action: Excellent surface cleaner also removes general traffic film and grime from wheels leaving surfaces really bright and shiny, with water beading effect.

Directions For Use:

For best results follow the instructions below:

1. Spray onto dry wheels from a distance of 20 to 30cms.
2. Agitate any stubborn deposits with Roulette Wheel Brush # 89501.

3. Allow solution to act on surface for a few minutes, but do not allow to dry.
4. Using high pressure, rinse off thoroughly with clean water.

N.B. CAUTION. Any unlacquered coatings on wheels and trim e.g. anodized, may react adversely to any strong cleaning solution (alkali or acid). If in doubt check small inconspicuous area before general treatment to determine there are no adverse effects.

Fully compliant with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents.

Typical Specification :

Composition	: A complex blend of surface active and chelating agents in a water base with dye.
Appearance	: Free flowing liquid
Colour	: Yellow/green
S.G.	: 1.06
pH	: 13
