

DRIVE

WATER RESISTANT TYRE DRESSING SILICONE FREE

Long Lasting Finish:

Treated tyres will stay looking 'as new' for many days after treatment ensuring vehicles awaiting customer collection retain 'as new' appearance.

Excellent Coverage:

Easy to use. Wets out to tyre surface without effort.

Fast Drying:

For rapid vehicle turnaround.

High Lustre:

Non tack finish.

Surface Friendly:

Non-aggressive solvent blend will not mark surrounding paintwork or plastics on wheel trims.

Directions:

Tyre surface to be treated should be clean and dry. Apply Drive with trigger spray or brush and allow to dry. If necessary use a lint free cloth moistened with product to remove any excess and even out film.

Note: For interior rubber mats we recommend Outline #440.

Typical Specification :
