

DRY FABRIC SPOTTING SOLVENT

Super Cleaner:

A unique blend of dry cleaning solvents formulated to absorb oily/greasy stains from fabrics and carpets.

Controlled Speed:

Stays workable in use to allow effective stain removal without ring-marks.

Pre-Cleaner:

Use a pre-mist spray over fabric prior to general fabric cleaning to dramatically pre-release stubborn ingrained dirt.

Directions: DO NOT SMOKE

Use only in well ventilated areas with vehicle doors and windows wide open. Do not use on PVC upholstery or paintwork. Wear gloves for use.

For use as a Spotting Solvent:

Apply a small quantity of cleaner with a cloth working outwards from the area of the stain using less and less cleaner to avoid ring marks.

As a Pre-Spray:

Using a trigger spray lightly mist over the fabric surface. Leave for a few minutes prior to commencing the fabric shampoo.

Note: Before driving vehicle ensure all solvent vapours have gone.

Typical Specification :

Composition	: A blend of perchlorethylene with solvent naphtha.
Appearance	: Water white liquid
Odour	: Distinctive
F.P.	: 46°C
S.G.	: 0.90
