

JET

BLACK NANO-CARNAUBA WAX POLISH

Problem solving - Rapid solution: JET quickly and easily brings full gloss back to problem black paintwork by eliminating/masking minor holograms /swirl-marks. A quick solution for problem paintwork saving time and resource.

Nano “Lotus-leaf” effect: Nano-Technology bonds to paint surfaces driving off water, helping reduce dirt build-up, and making surfaces easier to clean and maintain.

Developed for All Paint Systems: Fully tested to ensure compatibility with all modern paint finishes including HS, Ceramic Clear coat etc.

No problems of black plastic trims. Whereas some conventional polishes have to be kept off adjacent plastics & rubber for fear of white staining, JET can be safely used without need for masking.

Easy to use: Wipe on –allow to haze, then simply buff to full gloss.

Low Chalk: No dusting problems.

User/Environment Friendly: Unique water based formulation contains no aromatic solvents.

Directions: Do not apply in direct sunlight. Shake well before use.

Apply JET sparingly to clean cool surfaces with soft polishing cloth.

Allow to haze then buff to shine with a micro-fibre polishing cloth.

Typical Specification:

Composition : An emulsified blend of Carnauba wax, non-volatile silicones, polishing aids, non-aromatic solvents, perfume and colour enhancers in water.

Appearance : Black viscous liquid

pH : 8.5

Perfume : Waxy

Stability : Protect from freezing. Store at ambient temperature.

Shelf Life : Eighteen months minimum in unopened containers.

Packaging : 1L.
