

MASTER CLEANER PLUS+

NEW FORMULA. MULTI-PURPOSE CLEANER CONCENTRATE

VERSATILE: A performance enhanced Multi-purpose cleaner concentrate for a wide range of cleaning applications for use either by machine or by hand.

TOTAL HARD SURFACE CLEANER: Suitable for use on all hard surfaces for quick, efficient and safe cleaning performance on paintwork, door shuts, wheels, under bonnet areas, engines, plant & equipment, garage floors etc.

EXCELLENT DEGREASER: Efficiently breaks down stubborn grease and oil deposits faster.

ECONOMIC: Concentrated formula with excellent dilution options.

Directions for Use:

Engines, Cabriolet hoods door scuff panels:
Dilute with 5 parts water.

For use as a touchless cleaner for vehicle bodywork

Dilute with 20 parts water.

Vehicle interiors/carpets/headlinings:

1 : 12 parts water

Apply Master Cleaner Plus+ by spray, mop or sponge. Allow a few minutes contact time. Agitate if necessary then rinse thoroughly with clean water.

FOR LIGHT DUTY CLEANING:

e.g. Mopping floors/wiping hard work surfaces dilute with up to 200 parts water.

Do not use excessive strengths when a more diluted solution is appropriate.

Do not allow un-rinsed residues to dry out on surfaces being cleaned as these surfaces may be adversely affected.

CAUTION: Some alloys and plastics are sensitive to alkali materials. If in doubt check before use. For fabric cleaning check a small inconspicuous area for colour fastness before general cleaning.

Typical Specification:

Composition	: A complex blend of surfactants, chelating agents and glycols in an aqueous base.
pH	: 13.4
Colour	: Yellow/Green Liquid
Odour	: Citrus
Shelf Life	: 2 years minimum in unopened containers.
Packaging	: 5L, 25, 200 & 1000L plastic containers.
