

NANO FAST-DRY FINISH

HIGH GLOSS DRYING AGENT FOR USE IN AUTOMATED/ROLLER BRUSH CAR WASH SYSTEMS AND MANUAL APPLICATIONS

Automated Wash Machines

Nano Fast Dry Finish is suitable for use with automated wash/roller brush machines; a brilliant finish is achieved with both a fresh water setup and when recycled water is used. Nano Fast-Dry can be used with, or without blow dryers.

Manual Use

This concentrated formula also gives excellent results and economy when used manually with a low pressure sprayer or through a pressure washer, either with hot or cold water.

Nano Technology

Use of Nano Technology gives a dramatic fast drying action and leaves an extra deep gloss shine, free from spotting or streaking.

APPLICATION:

Manual Use

Dilute Nano Fast-Dry Finish with between 50 parts and 100 parts water and apply to surfaces using a low pressure sprayer. Rinse thoroughly.

Automated & Roller Brush System's

Feed through the machines dosing pump to give the desired drying and waxing effect. Use in accordance with the machine manufacturer's instructions; typically set the pump at 5-10%.

Use through a Pressure Washer

Feed through the machine and typically set the feed to between 5-10%.

Typical Specification :

Composition	: A complex blend of Nano surface additives, surfactants, solubilizers and water.
Appearance	: Pale transparent liquid
Solubility	: Soluble
S.G.	: 1.0
pH	: 4.03
Shelf Life	: Minimum 2 years in unopened containers at ambient temperature.
Packaging	: 25L, 200L, 1000L plastic containers

CODE: 126
