

ODOUR-ROUTER

– CLASSIC NEW CAR –

**ELIMINATES BAD ODOURS COMPLETELY...
IT DOESN'T JUST MASK THEM!**

UNIQUE ODOUR NEUTRALISING FORMULA

New Odour-Router: Dual action air conditioning treatment.

A super concentrated emulsion specially formulated to combine advanced odour-absorbing technology with air freshening fragrance.

Cost effective:

New Odour Control technology does not require the use of expensive equipment or hazardous aerosols, making for greater economy, efficiency and more environmentally friendly: no aerosol solvent hazards and fully biodegradable.

Unique technology: the biodegradable system reacts with any malodours within the vehicle. The malodour is absorbed, not masked.

Wide variety of applications: Absorbs unpleasant smells and odours and leaves a fresh apple clean fragrance in all confined areas and in particular vehicle interiors, cars, taxis, coaches, buses, trains, vans etc..

Powerful: Absorbing action effectively neutralises odours of smoking, pet malodours etc.

Super Concentrated: Highly concentrated – vary the strength of fragrance-delivers excellent economy in use. 5l of concentrate makes a minimum 100l of odour absorbing new car freshness!

Versatile: Choice of application through trigger spray, fogging equipment, wet-vac upholstery cleaning machines.

Simple and Safe: Easy to dilute and apply.

Directions:

Trigger/pressure spray.
Dilute with between 20 to 50 parts water and spray onto pre-cleaned vehicle fabrics, carpets, headlining and into vent apertures, and allow to dry.

For aerial fogger dilute with 100 parts water.
For use in wet vac add small quantity into detergent feed bucket.

Typical Specification :

Composition : Concentrated fragrance emulsion
Appearance : Opaque liquid
Colour : Off white
pH : Neutral
Odour : New Car.
Solubility : Soluble in water
Shelf Life : Minimum 2 years in unopened containers at ambient temperature.
Packaging : 1L
