

P.B.R. SPECIAL

EXTERIOR PLASTIC & BUMPER RENOVATOR – O.E.M. (FACTORY) FINISH

Easy to Use Gel:

A ready to use high solids light gel for the rapid restoration of faded plastic bumpers, spoilers etc. to original equipment finish.

Non-Tacky:

Treated surfaces are no tacky to prevent dust pick-up and therefore will not attract dirt.

Durable:

P.B.R. Special maintains showroom appearance on outside sales vehicle displays. **Permanent Option:** For customers wanting a permanent restorer which does not wash off, Vista #469 is the choice.

Speed Gel:

Thixotropic consistency of PBR allows for trigger spray application with the gel holding to surface – making application fast and easy.

User Friendly:

The non tacky nature of PBR is acclaimed by users as a product that is a pleasure to work with as hands do not become sticky during use.

Silicone Free:

Suitable for bodyshop use.

Directions for Use:

Surface to be treated should be clean and dry. Shake can before use. Apply to plastic surfaces with a sponge or soft lint free cloth and allow to dry. It is **not** necessary to buff the finish. PBR can also be trigger spray applied, then use a sponge to spread and even out film then leave to dry.
