

WASH 'N' GLOSS

ROLLER BRUSH SHAMPOO CONCENTRATE

- **High Active:** A premier quality highly concentrated shampoo specially developed for frequent washing of coachwork, using either automatic or semi-auto roller brush machine wash processes.
- **Highly Effective:** Specially formulated to safely remove road traffic film.
- **Lubricates brush filaments.**
- **Leaves a water repellent gloss finish.**
- **Fully biodegradable.**
- **pH neutral**
- **Solvent and phosphate free**

Application Procedure:

Wash 'N' Gloss should be fed through the dosing pump of the machine in accordance with the machine manufacturers instructions.

Dilution :

Dilute between 1: 300 and 1: 800 : typically 1: 600 taking into account the level of soiling, machine efficiency and water hardness.

Feed rate should be adjusted to give effective cleaning performance.

Do not mix with other chemicals.

Apply solution working from the bottom upwards.

Do not allow product to dry out on surfaces.

Rinse thoroughly with clean water –high pressure rinse.
